

FLASHING LIGHTS

iride
passione italiana

- Universal LED flashing light with integrated antenna compatible with power voltage from 20 to 255 V alternate or continuous
- Equipped with a flashing function as a standard feature, but can also be installed in systems that already have this function (useful for maintenance of older systems)
- Reduced energy use thanks to one of the lowest absorbed power figures on the market (1 W)
- Option of wall mounting thanks to a bracket included in the package
- Fast and easy to install, IRI.LAMP can also be set up as a fixed light
- Available also in the version with a yellow cap (IRI.LAMP-Y)
